

Socket & See supports the goals of REACH (Registration, Evaluation and Authorization of Chemicals) which are consistent with our own commitment towards responsible use and handling of chemicals. The European Union passed new legislation on 1, 2007 that oversees the registration, evaluation, and authorization of particular chemicals within the European community. REACH requires that all existing and new substances be registered with the European Chemicals Agency. (ECHA)

After review of the legislation and most notably the definition of an "article" as defined in EC Regulation 1907/2006, Title II, Chapter 1, Article 7.1 (a) and (b), it is the view of Socket & See that our products are considered "articles". However, according to the definition in 7.1 (b), registration of an article is only required if it contains a named substance that "is intended to be released under normal or reasonably foreseeable conditions of use," Socket & See's analysis is that these products constitute non-registerable articles for their intended use.

Products sold by Socket & See do not contain any Substances of Very High Concern (SVHC) as defined in Article 33 (1) and (2) EC Title VII, Chapter 1 Article 57.

Please see the following pages for the most recent list of 197 SVHCs.
