

SOCKET & SEE

LOCK KIT 220

Complete LOTO & Safe
Isolation Solution

- Comprehensive kit for voltage testing and lockout/tagout procedures
- Includes VIP200 Voltage Tester and SP200 Proving Unit
- VIP200 is compact, measures AC/DC voltage in six steps, features a silicone lead
- SP200 is a portable voltage checker, ideal for verifying two-pole testers
- Lock-off devices feature customisable 3-digit combinations for enhanced security
- SAFE CASE ensures secure storage with pre-cut holes for easy access to the proving unit
- Compliant with safety standards BS EN61010 and HSE GS38
- Reliable and efficient for safe voltage testing and lockout/tagout procedures in electrical work

Description

The Socket & See LOCKKIT220 stands as the pinnacle of safety solutions for your electrical testing endeavours. At its core lies the VIP200 Voltage Tester, meticulously designed to meet the most stringent safety standards including CAT IV 600V, BS EN61010, and HSE GS38. With its precise AC and DC voltage measurement capabilities spanning six calibrated steps, the VIP200 instills unwavering confidence in your testing procedures.

Paired seamlessly with the sturdy SAFE CASE, the Socket & See SP200 Professional Proving Unit ensures not only the secure operation but also the protection of your indispensable testing tools. This combination guarantees peace of mind, knowing that your equipment is shielded from potential damage in any testing environment.

The LOCK PACK, featuring three customisable locking devices complete with 3-digit combinations, serves as an invaluable addition to the LOCKKIT220. This cost-effective solution provides a reliable safeguard against inadvertent energization of electrical installations,

reinforcing adherence to best safety practices in every scenario.

Delving deeper into its functionality, the VIP200 offers a comprehensive suite of features including continuity testing, phase rotation analysis, and a single-pole test function. Its Auto Test capability further ensures the integrity of its batteries, facilitating consistent performance throughout your testing endeavours.

Whether you're an electrician or engineer, the Socket & See LOCKKIT220 empowers you to execute electrical tests with unparalleled confidence and security. With each component meticulously crafted to uphold the highest safety standards, this kit serves as an indispensable companion for professionals seeking reliability and peace of mind in their testing processes.
